

Why cooperation is central for greener Central Europe

Cooperation is central for taking forward Europe's transformation and strengthening its cohesion

Building Solidarity

Our projects connect regions and people to address shared challenges.

Delivering change

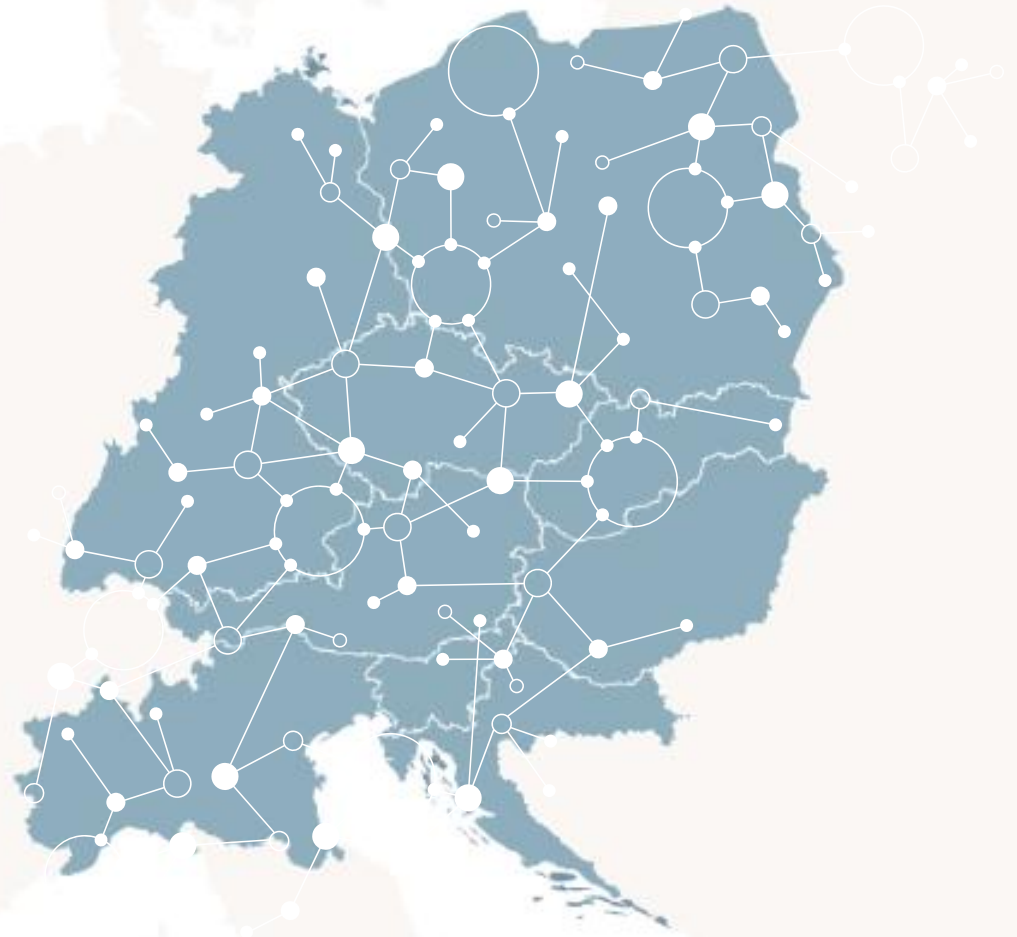

Our projects test innovative solutions in real-life settings to drive sustainable growth and support the twin transitions.

Achieving synergies

Our projects enable regions and cities to pool resources and knowledge for solutions with broader impact.

STRATEGIES

Interreg
CENTRAL EUROPE

Co-funded by
the European Union

www.interreg-central.eu

Why is CoFarm4Cities one of our funded projects?

Balanced and fitting partnership

- Geographically diverse network of involved institutions
- Five CE cities: Óbuda, Zagreb, Turin, Krakow, Ljubljana

Relevant and timely topic

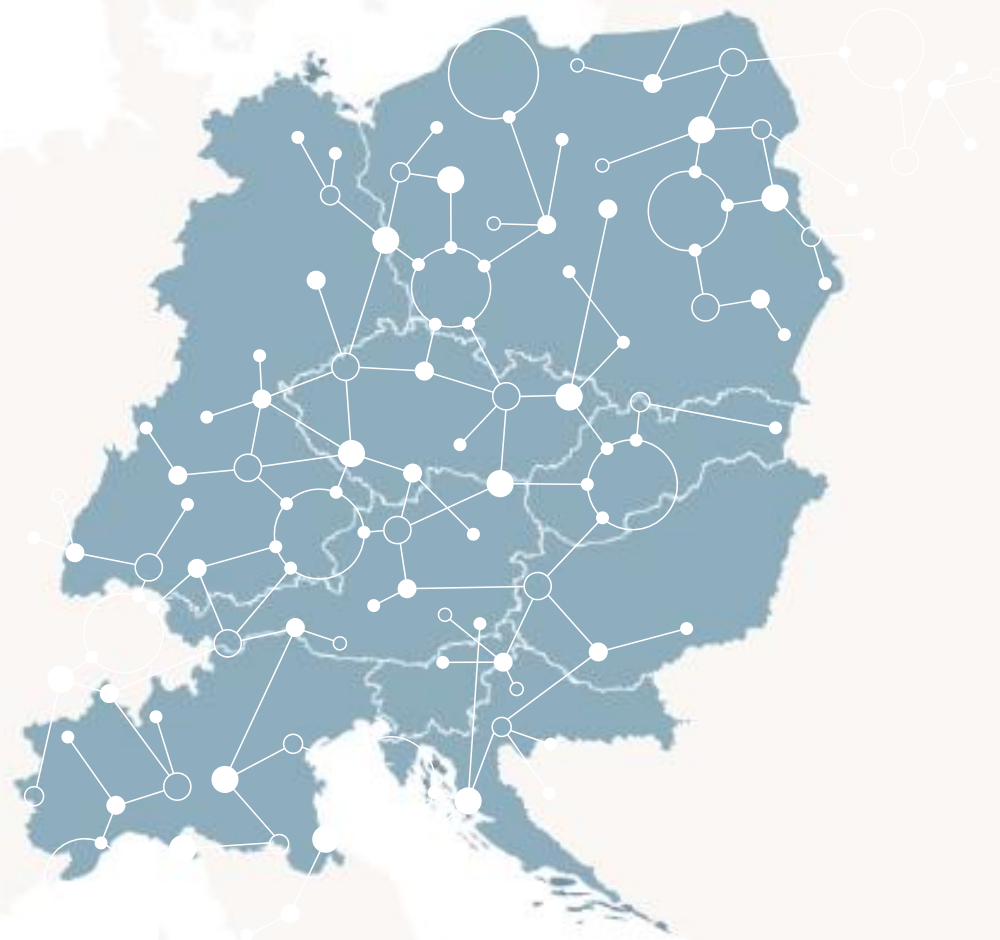

- Integrating climate resilience, food security, with social interactions & building communities
- Shared commitment to nature-based & sustainable solutions

Promising pilots and outputs

- Transformed peri-urban abandoned areas
- Tested solutions in real contexts with stakeholder engagement
- Developed a replicable model for sustainable urban farming

**How we are taking
cooperation forward
in central Europe**

WHAT'S AHEAD IN 2026

Since January 2026

25 projects are starting their activities for peripheral and lagging areas since January

May 2026

We will select **new capitalisation projects** in May and they will kick-off in autumn

February 2026

The programming of Interreg **CENTRAL EUROPE 2028-34** kicks off with a first meeting of our Member States

Summer 2026

Our **partner involvement measures for the new programme will launch** - Share your territorial challenges and needs with us
