~~URBAN FARM~~

CITY FARM

city, university, ngo, business

2024

Social reintegration and professional activation of people at risk of exclusion

Growing vegetables in the city, using sustainable agricultural practices

Distribution of crops to municipal (public) care and educational institutions

**How does
it work?**

1. Sustainable vegetable cultivation

coordinated by:

UNIwersytet
Przyrodniczy
we Wrocławiu

An aerial photograph of a large agricultural area. In the foreground, there are rows of young green plants in a field. Behind them is a large field of mature green corn. Further back, there are several large fields of golden-brown harvested crops, possibly wheat or corn. A dense line of green trees runs across the middle ground. In the far distance, a town or city is visible under a clear sky. A green semi-transparent box is overlaid on the left side of the image, containing white text.

Cultivation area:

First season: 2,5 hectares

Second season: 3,5 hectares

First season:

4 types of vegetables:
beets, potatoes,
pumpkins, zucchini

A wooden cart filled with various vegetables. On the left, a wooden crate is overflowing with bright orange carrots. In the center, a wooden crate contains several large, round orange pumpkins. To the right of the pumpkins, a green plastic crate is filled with dark green cucumbers. Further right, another green plastic crate contains purple radishes. In the foreground, a black plastic crate is filled with yellow-green beans. A large burlap sack in the foreground is overflowing with white parsnips. The cart is parked on a grassy area.

Second season:

11 types - including
kohlrabi, carrots, green
beans and fresh herbs

2. Support for long-term unemployed residents

coordinated by:

An aerial photograph of a large agricultural field. The field is divided into numerous rows of green plants, likely pumpkins or squash, which are growing in a grid pattern. The plants are spaced out, and the ground between them is covered with straw or mulch. Several people are scattered throughout the field, some standing and some kneeling, appearing to be engaged in agricultural work or a field activity. The field is situated on a slight slope, and the overall scene is one of active farming or a community garden project.

A group of
20 participants of the
"gardener" professional
activation program

3. Transport of vegetables to nurseries and kindergartens

coordinated by:

Educational activities

A thick, solid yellow horizontal line that underlines the text 'Educational activities'.

CELE PROJEKTU

OSIĄGNIĘCIE KORZYŚCI ŚRODOWISKOWYCH

- 1 skrócenie łańcucha dostaw wraz z ograniczeniem emisji CO₂, promowanie upraw nie wpływających negatywnie na środowisko

OSIĄGNIĘCIE KORZYŚCI SPOŁECZNYCH

- 2 poprzez aktywizację zawodową i społeczną osób w trudnej sytuacji życiowej

BUDOWANIE BEZPIECZEŃSTWA ŻYWNOŚCIOWEGO

- 3 poprzez zabezpieczenie dostaw lokalnie wytwarzanej żywności do jednostek miejskich

WSPARCIE EDUKACJI

- 4 w obszarze zrównoważonego rozwoju i lokalnego systemu żywnościowego

Zielony Wrocław

Wydział Wody i Energetyki

...całkowicie samochodem elektrycznym, by ograniczyć emisję CO₂ w mieście.

- Rozpoczęliśmy od 2,5 ha upraw buraków, ziemniaków, dyni i kukurzy.
- Pomagamy potrzebującym osobom długotrwale bezrobotnym, które zdobywają umiejętności w zawodzie ogrodnika i mają dzięki temu szansę na nowy start.

Miejska Farma Wrocław to projekt oparty na współpracy samorządu, nauki, NGO i biznesu.

Results?
